

Flat fix

Design André Schelbach

Flat fix is the modern and elegant interpretation of the classic serving trolley. High-quality materials such as polished and brushed stainless steel, high gloss lacquer and leather give this trolley table its sophisticated character. Designed with versatility in mind, Flat fix cuts a fine figure - be it in the kitchen, the living room or the office. A bottle holder and a tray in two sizes are available as additional equipment. Its clear cut design and functionality emphasise its modern character - a distinctive trademark of the Yomei collection. Dimension: 67 x 74 x 42 cm (W x H x D).

The top shelves of the FLAT fix serving trolley are available in the following versions:
