

## Magic Cube Work

Design André Schelbach

**MAGIC CUBE** is the multi-functional, individual cabinet from Yomei that offers three different functions in one design. The minimalist cabinet opens to reveal an interior which can be used as a make-up/dressing table, a coffee/bar cabinet or a computer/office centre. The high quality interior is finished in white, brown or black leather.

The **MAGIC CUBE WORK** with its slide-out upper shelf allows you to place a laptop and printer at comfortable working level. Electrical sockets are included with all of the MAGIC CUBE design variations. The space requirements for the MAGIC CUBE and its numerous functions are surprisingly small, only 60 x 144 x 50,8 cm (width/height/depth).

MAGIC CUBE WORK is available in various versions:

vener																		
	Oak Nature	Walnut	Oak Fine Dark	Macassar														
pantex
